

THE PERFECT SOLUTION FOR ALL YEAR-ROUND PROTECTION

For unpainted and previously painted houses, our wall coatings are designed to protect properties from penetrating damp. All repairs carried out to blown render and cracking, our coatings can be applied to any surfaces including brick, stone, render, pebble dash & Tyrolean finishes. We also have a clear coating for brick and stone.

With over 30 years of experience, we only use the best external coating systems available. Improve the look and value of your property by protecting your home from everything the British weather can throw at it.

The Ultimate in Wall Coating:

- Our wall coatings are pressured sprayed by highly skilled operators.
- Weatherproof & microporous to allow the walls to breath.
- Eliminates penetrating damp.
- Resists dirt, mould, alga & acid rain.
- 16 colours fast colour to choose from.
- 20 times thicker than conventional paint.
- Helps to hide marks/or scars on walls.
- Clear coating for brick & stone.
- 15 Years Guarantee
